NUTRICIA LEARNING CENTER

Managing EGIDs: Eosinophilic GI Disorders beyond the Esophagus

Presenters: Nirmala Gonsalves, MD and Bethany Doerfler, MS, RDN – faculty at Northwestern Memorial Hospital and Northwestern University Feinberg School of Medicine.

Recording on NutriciaLearningCenter.com - presenters' slides are not available.

Learning Objectives:

- Describe and recognize the clinical presentation and endoscopic features of EGIDs beyond the esophagus in adults
- Understand medical and dietary management options for EGIDs and when to implement each
- Describe the natural history of these disorders and the complications that can occur with unmanaged disease
